

Claim 5

I claim

~~What is claimed is:~~

1. A layered film sheet for coating a sheet-like ~~subject~~ ^{subject},
comprising ~~in which~~ an embossed polyvinyl chloride film ~~exists~~ as an
5 outermost layer and an EVA film ~~serves~~ as an innermost layer
to be in direct contact ~~with~~ ^{and} the subject when ~~the film sheet~~
~~is~~ folded to coat the subject, ~~with~~ ^{and} a low density polyethylene
film, an EVA film and a polyester film being intermediately
10 inserted between the ~~two~~ ^{outermost and innermost} layers, in due order from the
outermost to the innermost layer, said LDPE film being bonded
to the outermost layer via a water-miscible acryl-based
adhesive, said polyester film being bonded to the innermost
layer via a water-miscible acryl-based adhesive.
